

Register

The diagram shows a horizontal 'Register' at the top, composed of 16 vertical gray bars. Below it is a 4x4 grid of colored cells: yellow, cyan, green, and magenta. Arrows point from the first four bars of the Register to the first four columns of the grid. A feedback loop arrow points from the right side of the grid back to the Register. The grid has four rows and four columns. The first row is yellow, the second is cyan, the third is green, and the fourth is magenta. The first four columns are colored, while the last two columns are white. Arrows point from the first four bars of the Register to the first four columns of the grid. A feedback loop arrow points from the right side of the grid back to the Register.
